Maxi Schedule Generator: how it is put together

All of your responses to this will be saved to a document titled "scheduleqi.txt" as well as the schedule generated, unless you pick a different output file with --output.

sketched from the files

Maxi Schedule Generator: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed. OK

Product map: what Maxi Schedule Generator is for

WHAT IT IS

All of your responses to this will be saved to a document titled "scheduleai.txt" as well as the schedule generated, unless you pick a different output file with --output.

WHAT GOES IN

The files at the top of the tree: main.py, README.md, banner.png.

WHAT COMES OUT

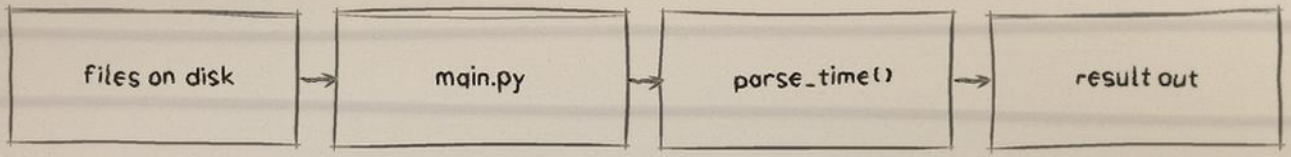

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, 

Maxi Schedule Generator: data flow, in one direction

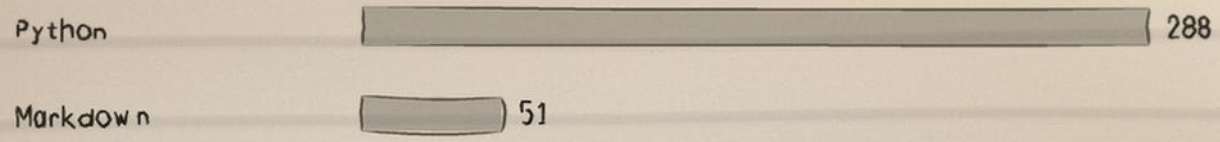

One direction. Anything the code does not do is not drawn.

second sheet,

Maxi Schedule Generator in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

5 files in the tree.
11 commits, first 2023-05-06, last 2026-10-30, from the local git log.
No test files by name in this snapshot.

counted and drawn, GK

Maxi Schedule Generator: schematic of the apparatus

the system as a machine: parts, flow, and measurements

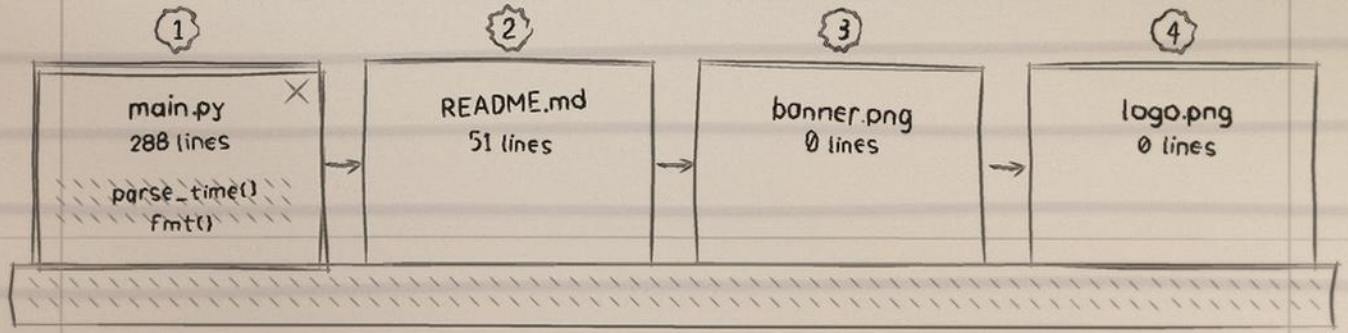

construction lines left in, as drawn

parts list

1. main.py
2. README.md
3. banner.png
4. logo.png

in flow order, first to last

housed in: assets

base plate: the repo itself, sectioned

span: 5 files, 339 lines counted

turns of the crank so far: 11 commits, 2023-05-06 to 2026-10-30

measured and sketched, GK
